

Nurix Therapeutics to Present at the Targeted Protein Degradation Summit 2019

October 15, 2019

SAN FRANCISCO, October 15, 2019 – Nurix Therapeutics, Inc., a company developing therapies that control disease-causing proteins, today announced that Arthur Sands, M.D., Ph.D., chief executive officer, and Gwenn Hansen, Ph.D., senior vice president, research, will present at the Targeted Protein Degradation Summit 2019 being held on October 22-24, 2019 at the Hilton Boston Logan Airport in Boston.

Presentation Details:

Section: Workshop E
Title: *Enabling Technologies for Targeted Degradation: Ligand Discovery using DNA-Encoded Small Molecule Libraries*
Presenter: Gwenn Hansen, Ph.D.
Date: Tuesday, October 22, 2019
Time: 2:30 p.m. EDT

Section: Unlocking the Full Therapeutic & Investment Potentials of TPD Through Successful Clinical Development
Title: *Developing Ligase Inhibitor and Activators for Cancer Therapy*
Presenter: Arthur Sands, M.D., Ph.D.
Date: Wednesday, October 23, 2019
Time: 4:10 p.m. EDT

About Nurix Therapeutics

Nurix Therapeutics develops therapies that control disease-causing proteins. Nurix's pipeline is focused on developing drugs as treatments for hematologic cancers and immune-mediated diseases including immuno-oncology therapeutics for cancer. Nurix was founded by internationally recognized experts in E3 ligase biology and immunology and is funded by leading life science investors Third Rock Ventures and The Column Group. The company is headquartered in San Francisco, California. For more information, please visit <http://www.nurixtx.com>.
